

Capture Security Center Release Notes

These release notes provide information about the latest SonicWall Capture Security Center (CSC) release.

Versions:

- [Version 3.0.2](#)

Version 3.0.2

August 2022

Compatibility and Installation Notes

- Most popular browsers are supported, but Google Chrome is preferred for the real-time graphics display on the Dashboard.
- A [MySonicWall](#) account is required.

What's New

- **A customizable dashboard that can show widgets from multiple products**
View security and operational insights from all products in a single dashboard. You can choose the insights that are most important to you, and export the dashboard data in a portable format.
- **Integration with the Capture Security Center platform for single sign-on, access, tenant context, and user settings**
Use your Capture Security Center/MySonicWall credentials to log in, select a tenant, and launch the Unified Insights application based on your custom settings.
- **A single application to generate, schedule and deliver reports for any of your products**
View and create on-demand or scheduled reports for any of your products from a single application.

Known Issues

Issue ID	Issue Description
SPOG-84	The Share via Email field on the Reports pages gets updated as <i>Administrator</i> , instead of the email address specified for the reports created from Network Security Manager (NSM).
SPOG-284	The Risky Device List is not included in reports scheduled using Unified Insights.
SPOG-548	Clicking Run Now on the Reports page for second time deletes the first archived report.
